

LEM – “At the Heart of Power Electronics”

LEM is the global leader in providing innovative and high quality solutions for measuring electrical parameters. Its current and voltage transducers are used in a broad range of applications in industrial, traction, energy & automation and automotive markets. LEM is a high growth global company with approximately 1,000 employees worldwide. It has production plants in Geneva (Switzerland), Copenhagen (Denmark), Machida (Japan), Beijing (China) and regional sales offices close to its customer's locations. LEM has been listed on the SIX Swiss Exchange since 1986; the company's ticker symbol is LEHN.

Quality Assurance Engineer

Based in Geneva

Key accountabilities:

You will be the key person to act as a coordinator between LEM and our panel of material providers for our production plant. You will be in charge of having the quality standards applied for all arriving products and will be responsible for all approval steps. You will take care of all incoming product checks (mechanical and/or electric measurements). You will follow all material provider action plan (PDCA) if a non conformity is encountered and you will propose appropriate action plan solutions. You will also take part in all monthly reportings.

Skills and professional background

Engineer diploma either in mechanic or electronic field.
Experience in a similar position of at least 3 years.
Customer orientation is one of your key values and you strive for continuous improvement through methodology and rigor.
Fluent in French and English (written and spoken)
Good knowledge of industrial field and high volume series (automotive would be a plus).
Quality tools mastering such as AMDEC, 5M, 8D, capability analyze, R&R)
Strong knowledge in fields such as PCBA, plastic injection, magnetic material cuts.
Excellent knowledge of MS Office tools and at least one ERP
Analytic frame of mind
Pragmatic and problem solving oriented
Good communication skills and team spirit oriented
Willing to travel

Date of employment: immediately
