

LEM – “At the Heart of Power Electronics”

LEM is the global leader in providing innovative and high quality solutions for measuring electrical parameters. Its current and voltage transducers are used in a broad range of applications in industrial, traction, energy & automation and automotive markets. LEM is a high growth global company with approximately 950 employees worldwide. It has production plants in Geneva (Switzerland), Copenhagen (Denmark), Machida (Japan), Beijing (China) and regional sales offices close to its customer's locations. LEM has been listed on the SIX Swiss Exchange since 1986; the company's ticker symbol is LEHN.

Sales Engineer Energy & Automation (E&A)

This position reports dotted-line to the Regional Sales Manager and straight line to the E&A Business Segment Manager. The incumbent will be interfacing on a daily basis with corporate leaders, business leaders in order to achieve his/her targets. This position covers France, Benelux, Spain and Portugal.

This position is based in South Paris suburbs – Bourg-la-Reine (92)

Key accountabilities

The function is responsible for setting up and developing end customers and sales channels with focus on Distributors and Catalogues for standard transducers and existing / new VARs (Value-added Reseller) in the field of Wireless Energy Monitoring and Standby Battery Management.

The aim is to continuously grow the business, improve market share and conquer new market segments. This will require the proactive introduction of new products. Efficient and effective customer and sales channels support is needed to achieve a notable contribution to customer satisfaction, and the achievement of company and sales targets.

Give qualified, application-orientated advice, as well clarification of all questions from customers, prospects and sales channels, autonomously and in cooperation with the in-house depts. involved.

Organize and share customers meetings at LEM sites and customer sites.

Actively contribute to the implementation (selection, training, etc.) of new sales channels (Catalogues, Distributors and VARs).

Utilize appropriate sales and marketing activities with distributors (i.e. customer workshops, road shows, advertising, mailings, exhibitions, conferences etc.) to boost indirect and direct sales.

Undertake internal and external proactive project follow up (WCS project list).

Reporting: contribute through the provision of relevant data to the preparation of monthly and quarterly reports to the sales management.

Preparation of mailings and execution of mailings in cooperation with MarCom.
