RoHS Compliance Statement

We hereby certify that, within the scope of our activities and in accordance with Directive 2011/65/EU (RoHS), our products and processes involving substances listed in Annex II of the Directive comply with all requirements and exemptions thereof.

LEM products may contain lead at a concentration of less than 4% by weight in accordance with Exemption 6(c) set out in Annex III to Directive 2011/65/EU and Article 5(5) and 5(6) thereof.

To the best of our knowledge, all other substances listed in Annex II to Directive 2011/65/EU (RoHS 2), as amended by Directive (EU) 2015/863 (RoHS 3), are not present in LEM products.

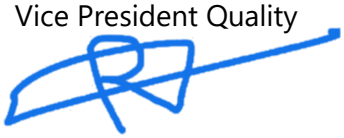

We continuously monitor regulatory developments to ensure the ongoing compliance of our products with changes to the RoHS Directive. Any change likely to affect the compliance of our products will be communicated appropriately to our customers and partners.

Any questions regarding the application of the RoHS requirements at LEM may be addressed to your usual sales contact or to material-compliance@lem.com.
